SNOWPROX S953

SNOWPROX S953

Snowprox S953 is the new
TOYO TIRES high performance
winter tire.

Available in aspect ratios from 60 down to 40 series, Snowprox S953 has been developed to offer improved braking and ride comfort in wet and dry conditions.

Tread Pattern Features

Asymmetric Section Slit

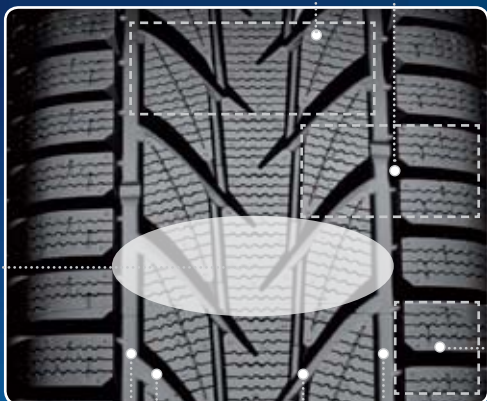

- Enhanced wet and dry braking

Rib and Large Size Block

- Enhanced dry handling

Multi Wave Sipe

- Stable handling in both wet and dry
- Better irregular wear resistance

Two Wide Grooves and V-Shape Grooves

- Enhanced water drainage

Open Lateral Slit

- Enhanced water drainage and snow traction

Lateral Sipe

- Enhanced snow traction

Construction Technology

High-Tensile Steel Belts

- Enhanced handling and stability

Silica Compound

- Enhanced snow and wet handling

Spiral Jointless Cap Ply

- Enhanced high speed durability and precise uniformity

High Hardness Bead Filler

- Enhanced handling

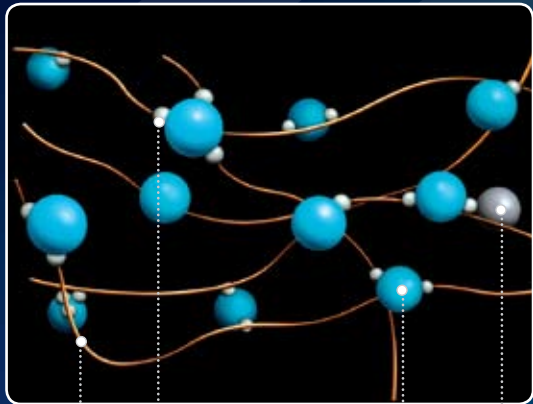

High Rim Strip

- Enhanced dry handling

SNOWPROX S953

Tread Compound

Naturally derived element

Silica

Polymer

Carbon

A more uniform dispersion of silica is achieved by means of a naturally derived element.

As a result, wet and dry grip have been improved without compromising winter performance.

SNOWPROX S953
